Warrant for Town Meeting

JANUARY 5, 1903.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To George Twigg, a Constable of the town of Needham,
in said County, GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, to meet at the town hall in said town, on Monday, the fifth day of January next, at eight o'clock in the afternoon, then and there to act upon the following articles, viz :

ARTICLE 1. To choose a moderator to preside in said meeting.

ART. 2. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to cover any deficiencies that may appear in the appropriations for the fiscal year ending December 31, 1902.

ART. 3. To see what action the town will take in regard to unexpended balances.

ART. 4. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to

carry on the several departments of the town for the remainder of the municipal year, ending March 2, 1903.

ART. 5. To see if the town will vote to reduce the number of hours called for in the town's contract for street lighting, vote extra remuneration to the Greendale Chemical Co. or to take any other action to relieve said Company from its present embarrassment, caused by the scarcity and extreme high price of coal, and appropriate money therefor, on petition of George E. Wye and others.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting.

Hereof fail not, but make due return of this warrant with your doings thereon, unto our town clerk on or before said day and time.

Given under our hands at Needham aforesaid, this twenty-second day of December, A. D. nineteen hundred and two.

ALFRED J. MERCER,
EDGAR H. BOWERS,
JOSEPH B. THORPE,

[TOWN SEAL.]

Selectmen of Needham.

OFFICER'S RETURN.

NORFOLK, SS.

NEEDHAM, Dec. 26, 1902.

By virtue of this warrant, I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true and attested copies of this warrant in twenty public places within said town seven days before the time of holding said meeting.

GEORGE TWIGG,

Constable of Needham.

A true copy of warrant and officer's return.

Attest: THOMAS SUTTON,

Town Clerk.

Record of Town Meeting

JANUARY 5, 1903.

Pursuant to the foregoing warrant a meeting of the bitinhaants of the Town of Needham qualified to vote in elections and in town affairs, was held in the town hall in said town, on Monday, January 5th, A. D. 1903, at eight o'clock.

The meeting was called to order by the town clerk who read the warrant for calling said meeting and the return of the officer who notified and warned the inhabitants.

ARTICLE 1. Emery Grover was chosen moderator.

ARTS. 2 and 3. Voted that the unexpended balances of the library and water departments and that for the widening of Great Plain avenue be continued for the purposes for which they were appropriated and the remainder of the unexpended balances be turned into the treasury and the deficiencies paid therefrom.

ART. 4. The following appropriations were voted under this article, each item being voted upon separately, viz:—

For the relief and support of the poor, five hundred dollars (\$500).

For the removal of snow, seven hundred dollars (\$700).

For printing and stationery, five hundred dollars (\$500).

For the construction, maintenance and repairs of highways, townways and bridges, four hundred dollars (\$400).

For street lighting, six hundred dollars (\$600).

For maintenance of the fire department, one hundred and fifty dollars (\$150).

For incidentals of the fire department fifty dollars (\$50).

For the care and rent of town hall, seventy-five dollars (\$75).

For the maintenance of the public library, seventy-five dollars (\$75).

For state aid, ninety dollars (\$90).

For soldiers relief, twenty dollars (\$20).

For fire alarm service, one hundred dollars (\$100).

For police service, five hundred dollars (\$500).

For salaries of town officers, two hundred dollars (200).

For incidental expences, six hundred and fifty dollars (\$650).

For the maintenance of schools, four thousand dollars (\$4000).

For Mrs. Mary A. Murphy as per agreement, fifty-five dollars (\$55).

For street lighting an additional sum of six hundred dollars (\$600).

Voted unanimously that the town treasurer be authorized with the approval of the selectmen, to borrow on temporary loan, such sums of money as may be necessary to meet the appropriations made under this article, in anticipation of the collection of taxes for the year 1903, the same to be paid therefrom.

ART. 5. Voted that from January 1st, 1903, to October 1st, 1903, the town of Needham shall pay the Green-

dale Chemical Co. at the rate of twelve dollars per year per light, instead of the sum now being paid by the town under the contract existing between the town and said company.

At 9.15 p. m. voted that this meeting be dissolved.
Dissolved.

Attest :

THOMAS SUTTON,

Town Clerk.

Voted that the sum of seven hundred and fifty dollars (\$750) be appropriated for the adoption of a storage battery for the fire alarm system to take the place of the gravity now in use.

ART. 9. It was unanimously voted that the town treasurer be authorized with the approval of the water commissioners, to borrow such sums of money as may be necessary in anticipation of the collection of water rates, the same to be paid therefrom.

ART. 10. It was unanimously voted that the town issue bonds to the amount of ten thousand dollars (\$10,000) to be dated the first day of September 1902 to bear interest at the rate of four per centum per annum, payable semi-annually on the first day of March and September in each year, said bonds to be of the denomination of one thousand dollars, to mature and be payable as follows: five thousand dollars in the year 1931 and five thousand dollars in the year 1932, said bonds to be executed and issued under and according to the provisions of chapter 107 of the acts of 1888; chapter 35 of the acts of 1891: chapter 258 of the acts of 1892, chapter 107 of the acts of 1898 and chapter 84 of the acts of 1902.

ART. 11. It was unanimously voted that the town treasurer be authorized with the approval of the water commissioners to borrow such sums of money as may be necessary in anticipation of issuing the water loan bonds.

ART. 12. It was unanimously voted that the water commissioners be and are hereby instructed to build a basin near the pumping station and make the pipe line connections as recommended by them in the report of 1902 and that the expense of the same be paid from the funds of the construction account of the water department.

ART. 13. Voted that the auditor cause the valuation list and the financial and other reports of the town officers and committees, together with his own report on the same to be printed and delivered to the selectmen for distribution as soon as possible after the first of January, 1904.

Voted that the town clerk cause to be printed official copies of the proceedings of this meeting, one of which he shall send to each officer of the town within two weeks after the final adjournment of this meeting, and shall deliver one copy to any voter or taxpayer in the town who may apply for it; and the town clerk shall furnish a copy of the record of each and every town meeting held during the year for printing, so that it may be bound with the annual report of town officers.

ART. 14. Voted, that all town meetings be notified and warned by posting properly attested copies of the warrant calling the same, in not less than twenty public places in the town, at least seven days before the time of holding said meetings; and that a copy of the town warrant, with the report of the town officers, be left at each dwelling house in the town at least seven days before said meeting, but the leaving of a copy as aforesaid shall constitute no part of the service of said warrant.

ART. 15. Voted, that all poll and personal property taxes shall be payable on demand, and all other taxes on or before the first day of October next. Interest at the rate of one-half of one per cent. a month shall be charged on all taxes not paid on or before the first day of November next. The collector shall use the means provided by law for the collection of all taxes remaining unpaid after the first day of December next.

(The above paragraph shall be printed on the tax bills.)

The collector of taxes shall have the same power which the treasurer would have when acting as collector.

The collector shall receive his pay when one-fourth the amount of the warrant is received, and when one-half the amount is received, and when three-fourths of the amount is received, and the balance of pay when the full amount has been collected.

If, in the judgment of the collector, that in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection, and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors); he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April, 1904. The compensation of the collector shall be one per cent. on all taxes and interest collected by him and paid to the treasurer.

ART. 17. It was unanimously voted that the water commissioners be and hereby are instructed to continue the water main in Central avenue from the terminus at the house now occupied by H. Morris Armstrong to the house of Joseph J. Macgowan.

ART. 18. It was unanimously voted that the town instruct its water commissioners to extend the water system from Charles River street along Central avenue to the residence of David Simon.

ART. 19. Referred to the selectmen.

ART. 20. It was unanimously voted that the selectmen be and hereby are instructed to build a new six feet wide

and three feet deep culvert over Rosemary Brook on Central avenue near West street, the expense of the same to be paid from the general appropriation for highways and bridges.

ART. 21. The following is a copy of a letter received from William Carter, Esq. donating a lot of land for a public library building :

NEEDHAM, March 16, 1903.

To the Citizens of the town of Needham :

As a mark of my regard for the well being and best interests of the town of Needham, and to supplement the gift of Andrew Carnegie to this town, I take pleasure in offering to the town the lot of land at the northeast corner of Highland avenue and Mellen street comprising 11,711 feet, more or less, as a site for a public library building. This offer is made without qualification or other restrictions save that the land shall be used as a building site for the public library building to be given to the town by Andrew Carnegie.

WILLIAM CARTER.

Voted to accept the lot of land corner of Highland avenue and Mellen street donated by William Carter, Esq.

Voted that the board of selectmen be and hereby are authorized and directed to receive on behalf and in the name of the town a deed of conveyance from Mr. Carter of the lot of land at the northeast corner of Highland avenue and Mellen street as outlined in his offer to the town.

Voted that Mr. Leonard Dawson, Mr. William Carter, Mr. Francis deM. Dunn, Mr. Charles E. Stanwood, Mr. Robert B. Walker, Mr. James F. Ryan, Mr. Henry T. Childs, Mr. George K. Clarke, and Mr. William Gorse, be and hereby are chosen a building committee, with full power to procure plans, employ an architect, execute con-

tracts in the name and behalf of the town, and to perform any and all such other duties as may be required to carry into effect the vote or votes of the town in relation to the construction of the public library building to be given to the town by Andrew Carnegie, Esq.

Resolved, that an annual levy shall hereafter be made upon the taxable property of the town, sufficient in amount to comply with the requirements of the Andrew Carnegie gift.

Voted, that the town of Needham extend to Mr. William Carter a vote of thanks for the donation of the site for the public library building.

Voted, that the town extend to Mr. Leonard Dawson a vote of thanks for the interest he has taken and assistance rendered in procuring from Andrew Carnegie, Esq., the gift of a public library building.

Voted, that the town extend to Dr. Albert E. Miller a vote of thanks for the very generous offer of a lot of land at the corner of Dedham avenue and Lincoln street.

ART. 22. Motion under this article not carried.

ART. 23. Voted, that the selectmen be instructed to call a special town meeting Wednesday, April 8, at eight o'clock in the afternoon, for the purpose of considering the subject matter of article 23, and that the committee on electric lighting be given until that time for further investigation.

ART. 24. Voted to designate and establish the names of the bridges over the Charles River and within the limits of the town, as follows, viz :

The bridge at the easterly terminus of Central avenue, at the Upper Falls, to be known as Cook's bridge.

The bridge at the easterly terminus of Highland avenue to be known as Highland avenue bridge.

The bridge at the easterly terminus of Kendrick street to be known as Kendrick's bridge.

The bridge at the southerly terminus of Greendale avenue to be known as Lyon's bridge.

The bridge at the southerly terminus of Dedham avenue to be known as Dedham avenue bridge.

The bridge at the southerly terminus of Chestnut street to be known as Day's bridge.

The bridge at the westerly terminus of South street to be known as Newell's bridge.

The bridge at the westerly terminus of Central avenue to be known as Fisher's bridge.

The bridge at the westerly terminus of Charles River street to be known as Peirce bridge.

Voted, that the selectmen erect suitable tablets on each bridge to designate the name.

At 12.34 a. m. voted, that this meeting be dissolved.

Dissolved.

OFFICER'S RETURN.

NORFOLK, ss.

NEEDHAM, September 19, 1903.

By virtue of this warrant, I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true copies of this warrant by me attested, in twenty public places within said town, more than seven days before the time of said meeting.

Record of Town Meeting

SEPTEMBER 28, 1903.

Pursuant to the foregoing warrant, a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall in said town, on Monday, September 28, A. D. 1903.

The meeting was called to order at eight o'clock in the afternoon by the moderator.

Voted to omit reading the articles in the warrant.

The town clerk read the officer's return.

ART. I. Under this article it was voted unanimously to accept the report of the town hall building committee, which was as follows:

Report of the Town Hall Building Committee

The committee to whom was entrusted the erection of a town hall submit the following report. Your committee, with the plans of Messrs. Winslow & Bigelow, which were adopted by the town at the meeting of June 16, 1902, immediately set to work to carry out the vote of the town. Bids were solicited for the construction of the building, and the contract was awarded to Messrs. Mead, Mason & Co., of Boston. This contract included the plumbing for the building, but did not include the heating, ventilating, or the electrical work — these were covered by separate contracts.

.

The contractors commenced operations immediately, and the corner-stone of the building was laid with appropriate Masonic ceremonies by M. W. Charles T. Gallagher, Grand Master of Massachusetts, on Sept. 2, 1902.

In putting in the foundations your committee met with considerable difficulty, the nature of the soil requiring deep trenches and heavy walls, making an additional expense of \$2131.61. Since the awarding of the contract certain changes and additions have been made, and in every case it has proven to have been of benefit to the building. In addition to the extra expense of building the foundation, your committee have caused the hall to be furnished with electric fixtures and lamps, have paid the expense of connecting the lighting system with the Edison service, have placed a clock in the tower, and have contracted for the grading about the building. With all these extras, we have been able to keep within the appropriation of \$55,000.

The building has been thoroughly constructed, the workmanship is of the best, it is supplied with sufficient heating apparatus, is equipped with modern plumbing, a conduit has been placed in the building for telephone wires, the lock-up is furnished with five steel cells instead of brick cells as were called for in the original contract and plans, and fire-proof vaults for storage of valuable papers have been supplied,—in short, your committee have endeavored to supply the town with a building that shall be in every way suited to its needs.

There are still a few minor details to be adjusted, and as soon as these are disposed of, the building will be turned over to the board of selectmen.

For the Committee,

H. S. WHITTEMORE,

Needham, Sept. 22, 1903.

Secretary.

ART. 2. Voted that the report of the town hall furnishing committee be accepted, and that they be authorized to carry out the recommendations contained therein, and that the sum of twenty-six hundred dollars (\$2600) be appropriated for that purpose. Following is the report:

Report of Committee on Furnishing New Town Hall

Needham, Mass., Sept. 28, 1903.

The committee appointed at the last town meeting to report on the cost of furnishing the new town hall, beg leave to report that it will require not far from \$3,500 to furnish the whole building completely with new furniture of the best quality of its kind. This includes new desks, tables, chairs, wardrobes, book-cases for all of the different town officers.

In view of the fact that this town has been obliged to appropriate such a large amount for expenses this year, and the tax rate being correspondingly high, which we believe is most detrimental to the growth of the town by keeping out new residents of property, who might otherwise be attracted to Needham and help us bear the burden of taxation, and thus enable us to have even more of the desirable things which every well governed community should enjoy, we recommend that only that part of the furniture of the building which is absolutely indispensable be purchased at this time, and that the desks, tables and other furniture which the town now owns be used in the new offices on the first floor of the building.

From time to time hereafter, as the needs of the various offices appear, new furniture can be added as the town may see fit. We would, therefore, now advise the purchase of about 900 seats for the hall, in keeping with the

wood-work of the room, of draperies, curtains, painted back curtains, borders and side wings for the stage, of window shades throughout, of hose and fire fittings for the standpipes, and of a few necessary pieces of furniture for dressing rooms, etc., which we estimate will cost not far from \$2600.

The old chairs in the old town hall room can be sold, and the bonds authorized to pay for the town hall commanded a net premium not far from \$1300 above their face, which might also be used for the purpose of buying furniture.

R. P. SNELLING,
For the Committee.

ART. 3. Voted that subject matter of this article be referred to the board of selectmen and the town hall building committee.

ART. 4. Voted that the sum of seven hundred and fifty dollars (\$750) be appropriated for the care and maintenance of the new town hall until Dec. 31, 1903.

ART. 5. Voted that the sum of one hundred dollars (\$100) be appropriated for care and maintenance of town hall until Oct. 31, 1903.

ART. 6. Voted that the sum of six hundred and fifty dollars (\$650) be appropriated for extra expenses in the construction of the new public library building.

ART. 7. Voted that the sum of three hundred and fifty dollars (\$350) be appropriated for the grading and laying out the grounds of the library lot, and that the grading be done by the highway department under the direction of the library building committee.

Voted that the sum of fifteen hundred dollars (\$1500) be appropriated for furnishing the new public library building.

Voted that the building committee, with the additional members of the trustees of the public library, be a committee to furnish the new library building.

ART. 8. Voted that the committee appointed to furnish the new public library building be a committee to arrange for a public dedication of the same.

ART. 9. Voted that the sum of one hundred dollars (\$100) be appropriated for moving furniture, fixtures, etc., belonging to the town to the new town hall.

Voted unanimously that the town treasurer be authorized with the approval of the selectmen to borrow on temporary loan such sums of money as may be necessary to provide for the appropriations made under this warrant, the same to be paid from the tax levy for 1904.

Voted that the net premiums realized by the sale of the town hall bonds be appropriated towards furnishing the town hall, the same to be deducted from the twenty-six hundred dollars voted at this meeting.

At twenty minutes past ten voted that this meeting be dissolved.

Dissolved.

OFFICER'S RETURN.

NORFOLK, SS.

NEEDHAM, October 26, 1903.

By virtue of this warrant, I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town, more than seven days before the time of holding said meeting.

Record of General Election

NOVEMBER 3, 1903.

In pursuance of the foregoing warrant, the inhabitants of the town of Needham, qualified to vote in state elections, met in the town hall in said town, on Tuesday, the third day of November, in the year one thousand nine hundred and three, at six o'clock in the forenoon, and were called to order by Joseph B. Thorpe, chairman of the board of selectmen, who read the warrant for calling said meeting, and the return of the officer who notified and warned the inhabitants.

The selectmen having previously appointed Albert E. Collishaw, William F. Casey, William H. Stanton and Arthur J. Littlehale to act as ballot clerks, they were sworn to the faithful discharge of their duties by the town clerk.

The package containing the first set of ballots received from the secretary of the commonwealth was then delivered to the presiding officer, as required by sec. 209 of chap. 11 of the Revised Laws, and his receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by law.

The ballot box furnished by the commonwealth for use at elections was publicly opened and shown to be empty. The box was then locked and the key given to John W.

Crisp, the officer in attendance at the polls. The polls were opened for the reception of ballots at ten minutes past six in the forenoon, and were kept open until forty-two minutes past four o'clock in the afternoon, when it was voted to close the polls.

At the opening of the polls the ballot box register stood at 000.

At eighteen minutes past two o'clock in the afternoon the ballot box was opened by the unanimous consent of the selectmen and town clerk, and four hundred and fifty ballots taken therefrom.

At the close of the polls the ballot box register stood at 563.

As the ballots were taken from the box they were audibly counted by the presiding officer and announced as five hundred and sixty-three.

The names on the list of voters used at the ballot box, which had been checked, were counted and the number found to be five hundred and sixty-three, which agreed with the number of names checked on the list of voters kept by the ballot clerks.

Irving Southworth, Charles Measure, Frank W. Scotton and Daniel J. Murphy, Jr., having been appointed by the selectmen to act as tellers, they were sworn to the faithful discharge of their duties by the town clerk.

Additional tellers were appointed by the selectmen and sworn by the town clerk, viz: William A. Probert, Henry D. Blackman, T. Robert Quinlan and Michael J. Collins.

A canvass of all the ballots given was made by election officers, as required by chapter 12 of the Revised Laws, the blank forms furnished by the secretary of the Commonwealth being used.

Upon completion of the canvass, all the ballots given in therefor were sorted, counted, recorded, and were for the following persons, namely:

Blanks one hundred and nineteen.

Upon the question "Shall an act passed by the general court in the year nineteen hundred and three, entitled 'An act to provide for joint caucuses or primaries of all

political and municipal parties,' be accepted ?" the result was as follows :

Yes, one hundred and seventy-four.

No, one hundred and forty-five.

Blanks, two hundred and forty-four.

The business of the meeting being completed, all the ballots cast, the undistributed ballots, and also the check lists used, were sealed up and endorsed by the election officers, as required by sec. 239, chap. 11, of the Revised Laws, and placed in the custody of the town clerk. The returns of votes were signed by the selectmen, attested by the town clerk, and sealed up in open town meeting and delivered to the town clerk.

At 7.50 o'clock in the afternoon, voted that this meeting be dissolved.

Dissolved.

REPORT OF THE

Sealer of Weights and Measures

To the Honorable Board of Selectmen, Needham, Mass.

GENTLEMEN:— I respectfully submit the annual report of sealer of weights and measures, for the year ending December 31, 1903.

The work of this department shows a large increase over that of last year, more than double the number of milk jars being tested as shown by this report.

The equipment etc. has been inspected by the state deputy sealer of weights and measures and shows the work to have been performed in a very creditable manner, but that the equipment lacks some articles which are essential for the proper performance of these duties, and recommended that the same be supplied.

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

Selectmen and Overseers of the Poor

FOR THE YEAR 1903

NEEDHAM
THE CHRONICLE PRESS
1904

Report of the Selectmen and Overseers of the Poor

To the Inhabitants of the the Town of Needham :

HIGHWAYS AND BRIDGES.

The Great Plain ave. widening is practically completed, and with the removal of the electric car poles, which the Railway Co. have promised to remove, its convenience and appearance will be added to ; but in order to receive the greater benefit of the widening, we believe the Old Colony Street Railway Company's tracks on Great Plain ave. should be re-located and laid on the northerly side of the elm trees and stop at Chapel st. Also, in our opinion it would be a great improvement and convenience to persons residing northeast and south of the Baptist and First Parish churches, if the Newton and Boston street railway company's tracks, instead of turning at Chapel st., were continued to Great Plain ave., and thence to Chapel st.

In beginning the some time proposed repairs on Maple st., it was found that this street was never properly constructed, and in order to do a good piece of work the old road bed had to be removed its entire width to a depth of some ten to twelve inches, which involved a greater outlay than was thought would be required when the repairs were being considered and decided upon ; but the materials

used in the construction, and the thorough manner in which the work was done, will give to the town a splendid piece of road which will require little if any repairs for years.

Portions of Chestnut street are badly in need of repairs, and recognizing the value to the town, also to other towns and the travelling public generally, of the State Highway on Highland ave., extending from the stone bridge to Webster st., we have petitioned the state board of highway commissioners to construct a state road on Chestnut street a mile or so in length, from the bridge at the Dover line. If the petition meets with favor and the road is built, it will be practically an extension of the Highland ave. state road, which will provide a through route from Needham's southern boundary to Boston over the best of roads. This is to be desired for the benefit it would be to our own town and those towns in our vicinity, and would be an incentive to them to provide better roads, no doubt. As we have said, repairs on this street will soon have to be made, and the expense to the town in making them will be much larger than would be its proportionate share in building the state highway.

Several persons have criticised the action of the board for allowing the street department to take up lines of work considered by them as not a part of the duties of this department. We refer in particular to the objections made when it was known that the town would repair, or reconstruct if necessary, the culvert on Central avenue, and grade the grounds about the new town hall. It will be seen that the action of the board was clearly justified, when, after giving Needham contractors and those out of town acquainted with this class of work, an opportunity to present bids, which they did, the town, by employing good help, under a competent and intelligent superintendent, saved quite a sum of money.

NEW TOWN HALL.

We are aware, when we say that the town is to be congratulated in having a home, that it will not meet with the approbation of all our citizens, but any one acquainted with the accommodations furnished by the old town hall knows that they were entirely inadequate and did not fill the requirements of the several boards of the town officers, and were not in keeping with a town of Needham's years, only a few miles from the State House, a suburb of Boston, one of the leading towns of the Commonwealth. If we are to maintain this position, we must remain faithful to our trust, to our opportunities; then we shall do our part and help to raise Needham to that place which she ought to have, a commanding one among the towns of the State. This will not be with the wishing or the asking; communities, like individuals, must have high ideals and noble aspirations—"we must look up, not down, forward, not backward," we must try to reach a higher plane, that we may have a larger and broader outlook. The building committee are to be commended in not having exceeded the appropriations made to build the new town hall.

ELECTRIC LIGHTS.

The contract which secured to the town of Needham electric illuminating current for street lighting purposes, furnished by the Greendale Chemical Co. at six dollars (\$6.00) a lamp per annum, terminated in October.

By vote of the town the selectmen were instructed to enter into an agreement with the same company to furnish electric light to the town of the same kind and quality as called for in the original contract, to be used for the same purposes, but at an additional charge per light of four dollars (\$4.00). The price now is ten dollars (\$10.00),

when the town formerly paid six dollars (\$6.00) a light per year for its street lights. It was generally understood by the citizens that the Greendale Co. were trying to sell their plant, and transfer all the electrical interests in Needham owned by them to the Edison Electric Illuminating Co. of Boston.

The purpose of the Edison Co., if they secured control of the Greendale property, was to discontinue the Greendale plant as soon as practicable, and connect Needham with their South Boston station. In order to do this the Edison Co. petitioned the board for locations to erect lines of poles on which to run its wires to furnish the town and people of Needham current for lighting and other purposes. After repeated hearings, the following locations were granted: Great Plain ave. from Dedham line to Green st., to South st., to Dedham ave., to Pleasant st., to Kimball st., across private land to a point on Chestnut st. between Garfield and School sts., and on Chestnut st. to Dover line. When connected with the South Boston station, Needham will have the benefits to be derived from a twenty-four hour service.

BOARD OF HEALTH.

The town has not had to contend in the past year with any serious form of contagious disease, so-called. During the winter season a number of mild cases of scarlet fever were reported to the board. We would respectfully call the attention of the heads of families and all responsible persons to the state law regulating and governing cases of scarlet fever and other contagious diseases, as printed in the Needham Chronicle. We urge that faithful observance of its provisions be maintained, and when the disease is known, to at once notify the board, or its agent, Mr. George Twigg, when, as soon as possible, proper

precautionary measures will be taken to prevent the spread of the disease and the consequent suffering that might result therefrom.

THE POOR.

In this department the overseers of the poor have endeavored to meet the wishes of the people in disbursing the generous appropriation made by the town and placed in its keeping, to be used for the care and support of the poor and unfortunate. The town has many expensive charges, some of them of long standing. During the early winter one of these charges, Daniel K. Ritchie, who has been confined in a state institution for many years, died.

Many appeals for aid have been brought to the attention of the board during the year, which have received careful consideration, and relief has been impartially given.

SIDEWALKS.

During the year only a few applications have been received for concrete walks. While we appreciate the value of this kind of walk, we believe them to be best adopted to our business centers. In towns like Needham, of large area but of small population, the gravel sidewalk, which is much cheaper to build, but when properly constructed, and finished with a top dressing of crushed stone screenings, is pleasant to the eye, dry to the feet, and makes a very serviceable and durable sidewalk.

FIRE DEPARTMENT.

This department has maintained that efficiency and discipline which has characterized it in the past. The promptness and readiness with which it responds to the alarm, in the day or in the night, during the hot uncomfortable months of summer, the cold, severe and disagreeable storms of winter, are matters which should, and do, meet with appreciation from the people.

The services rendered by this department give a larger measure of security than could otherwise be experienced by the town's residents.

Respectfully submitted,

JOSEPH B. THORPE,
ALFRED J. MERCER,
WALTER F. SNOW,
Selectmen of Needham.

Report of Superintendent of Streets

To the Honorable Board of Selectmen :

GENTLEMEN:— I submit the following report of the Street Department for the year ending Dec. 31, 1903.

Work on the highways commenced early in March ; as soon as the frost came out ruts were filled and muddy places were patched. The crushed stone piled up in the fall was used for this purpose, as far as it went, and the work continued with gravel until the roads hardened. By this method long stretches of road were made smooth for the season at but slight expense.

The scraper was used extensively, shaping up the roads where the material warranted it, draining gutters and removing used up surface material.

There is a growing demand by citizens that the gutters and grass borders in the village be kept clean and trimmed. Considerable attention has been given the matter this season and I believe nothing done by this department has given so general satisfaction, and the improved appearance of the village streets has justified the increased outlay for this purpose.

One mile has been added to our list of macadam streets.

The repairs on Great Plain avenue exhausted the available supply of surface stone in the Greendale district, and the crusher was moved to a location at the corner of Chestnut and High Rock streets, on land of A. E. Eaton,

who gave the use of the land free of charge. The stone used on Highland avenue and Great Plain avenue widening, and for the drive and walks around the Town Hall, was given by F. A. Townsend and E. G. Pond. Each year wall and field stone grow scarcer and more expensive to obtain. I believe the time has arrived when it will be economy for the town to secure one or more ledges of suitable stone in convenient localities.

MAPLE STREET.

This street, 1800 feet in length, never had a proper foundation, being built with a light coat of gravel on top of the original soil and was unfit for use in the spring. The loam was removed and a better grade was established, 6 to 10 inches of pit stone was placed on the sub-grade and rolled solid with the steam roller, 5 inches of gravel from Dunton's pit was then spread and thoroughly rolled. The waste material removed from the roadbed was used in filling low places along the street and in constructing a sidewalk on the west side.

GREAT PLAIN AVENUE.

The town voted to expended \$1,000 of the regular highway appropriation to repair this street between the residence of Stillman Bowers and Greendale avenue. Work was started at a point near Charles Haskell's and continued to the top of Glancy's hill a distance of 1,500 feet. The road bed was widened and the loam removed, 6 to 8 inches of coarse gravel from the Colburn pit was spread and rolled to make a foundation for the crushed stone, 6 inches of which was rolled in courses making a good macadam street 21 feet wide. The stone used was bought of Lewis Hasenfus and heirs of Charles Blackman and some was given by C. A. Smith and P. J. Glancy.

HIGHLAND AVENUE.

Highland avenue, between Hunnewell and West streets, was surfaced with crushed stone. The old surface was loosened, the grade made uniform and 4 to 5 inches of crushed stone was spread and rolled with the steam roller. With the completion of this piece of street, we now have a continuous macadam street from the Newton line at the river, to Needham village, 2 1-2 miles in length.

CHESTNUT ST., POND'S HILL.

Chestnut street, from South street, to the top of the hill, which was in a worn out condition, was repaired with stone 6 inches in depth rolled with the steam roller.

GREAT PLAIN AVENUE.

The streets from Central avenue to the residence of Theodore McIntosh, nearly one-half mile in length was repaired with gravel from Whitaker's.

Hillside avenue and Hunnewell street, from Pine Grove street to the R. R. bridge, were repaired with gravel from Hewett's.

Fisher street, from Central avenue to the railroad, 1,500 ft., was repaired with gravel from Battelle's pit.

South street, from Wm. Jones, to the Heidtke place was repaired with gravel from Battelle's.

Charles River street, from Pope's ice house to Grove street, was repaired with gravel from Pope and Alden's pit.

GREAT PLAIN AVENUE WIDENING.

Work on this widening was delayed by various causes until late in the season and the street is still unfinished. It should be completed at the earliest opportunity.

TOWN HALL GRADING.

The Building Committee solicited bids for this work and with the permission of the Selectmen a bid of

\$680.00 was submitted by the department which bid was the lowest and was accepted. The work was performed to the satisfaction of the Building Committee and cost \$671.55, which includes moving 100 loads of loam to the Public Library lot.

Cost of teams, labor and rolling,	\$633 50
Granite step,	24 00
Grass seed,	14 05
	<hr/>
Total costs,	\$671 55

PUBLIC LIBRARY GRADING.

The town voted to appropriate \$350 to grade the Library lot and that the work be done by the Highway Department, under the direction of the Building Committee. Considerable work was done, but the unfinished state of the building made it impossible to complete the job this season.

SIDEWALKS AND GUTTERS.

Concrete walks were built on Central avenue from Reservoir street to the Newton line, on Linden street, from Maple to Oak street, and on Avery square from Highland avenue to the railroad depot. The gravel walks have been extensively repaired and are generally in good condition. Concrete gutters have been laid on the hill on Reservoir street, on Central avenue at Hurd's, and on Great Plain avenue from the railroad to Garden street.

DRAINAGE.

The town voted to rebuild the culvert on Central avenue over Rosemary brook, the new culvert to be 6 feet wide and 3 feet deep. Several bids were received, the lowest being \$325.00. The work was done by the Highway Department. The dimensions of the new culvert are 6 feet in width and 4 feet depth, giving a better chance to

drain the meadows. The covering stones were given by Jeremiah Murphy, and cost nothing except for hauling. The expense of building the culverts was \$286.75. 350 feet of 12 inch drain with catch basin was laid in Mellen street and connected with the Highland avenue drain. 175 feet of 10 inch pipe with 2 catch basins and a discharge well was laid in Maple street. Attention should be given the coming season to the drainage around the Town Hall.

Report of the Trustees of the Free Public Library

The year 1903 is memorable for the erection, through the liberality of Andrew Carnegie, Esq., of a new library building, and the gift by Mr. William Carter of a valuable lot of land for the same, located in Highlandville.

The business, and consequently the usefulness of the library has increased the past year, and we have been fortunate in retaining the services of our faithful librarian, Mrs. Dunn, whose devotion to our interests is well known. Every year she has given much time gratuitously, and now we have a good card catalogue, which has cost us only the price of the cards, and the library is in a most satisfactory condition.

Exhibits of photographs, illustrative of geography and of art, have succeeded each other, a change of pictures occurring on the average every three weeks, sometimes oftener. The trustees are impressed with the educational value of these exhibitions, which attract considerable attention; the geographical or landscape photographs apparently are the favorites. It is no small task for the librarian to pack and unpack these collections, which average about seventy-five large photographs, and to arrange them on the walls.

The year 1904 will see the running expenses of our library system doubled, the duties of the trustees and librarian largely increased, and we hope that by the friendly co-operation of all interested in our library, and appreciating its possibilities, the best results may be realized.

Respectfully submitted,

GEORGE K. CLARKE.

A full description was given in last year's report of the methods and workings of the library. These methods have been followed with increasing success during the past year, and it is very gratifying to note the growing usefulness of the library to the pupils of the schools. Especially is this true of the High school. The number of pupils using the library has more than doubled during this period. The credit of this is due largely to the teacher of English and history, who has given much time at odd moments, to making a personal acquaintance with the contents of the library. Knowing the capacity and needs of the pupils, she has been able to lay out courses of reading and guide them in the selection of books. During the year there has been a continuous rotation of exhibitions of pictures sent by the Massachusetts Library Art Club, in which the library has a membership. These exhibits have been quite varied in scope. Besides photographs of famous works of art there have been some most beautiful exhibits of views of foreign countries as well as some interesting scenery in our own land. Such collections of pictures are of great educational value and it is hoped that they will be better appreciated as the fact of the exhibitions becomes more widely known.

Amount to be raised by taxation 1904,		\$68,846 36

The total value of assessed property in the town in 1903, was \$3,841,066. Assuming that the valuation should remain the same, and the estimated amount of money, \$68,846.36 should be raised, it would require a tax rate of \$17.92. The appropriation of each additional

\$1000 above the amounts recommended by the town meeting, will increase the rate of taxation twenty-six cents per \$1000, or for every thousand appropriated less than the recommendation of your committee the tax rate could be reduced a like amount.

Office hours of the Superintendent: Tuesdays and Wednesdays (during term time) from 4 p. m. to 5 p. m. in Room 8, Town Hall.

NOTE.

At a meeting of the School Committee, Jan. 29, 1904, it was voted to adopt the report of the Superintendent as the annual report of the School Committee.

Report of the Superintendent.

To the School Committee of Needham :

During the seven years that I have been privileged to work for the welfare of the public schools of this town, I have been increasingly appreciative of the confidence that has been reposed in me by the school committee. Its membership has changed several times, but the superintendent has never failed to receive its support. Attention is called to these facts to emphasize the importance of co-operation on the part of all entrusted with the administration of a public school system. If the people have seen good results, and if they find their schools in good order, they may attribute these results and the satisfactory condition of the schools to the harmony that has enabled all to work for a common purpose. To intimate that differences of opinion have never been manifested would give a wrong impression; but satisfaction arises from the willingness of all to compare opinions, to give deference to the views of others, and to formulate, by a comparison of views and by friendly discussion, plans perhaps more advantageous to the schools than any plan at first proposed. This method of working has resulted in steady progress. Stagnation has not been allowed, better things have been kept constantly in mind, but reckless experiments have been avoided and even desirable changes have not been hastened regardless of expense or of the readi-

ness of the people to receive them. If this view be too optimistic, perhaps we shall be excused for looking at the bright side of school conditions rather than to intimate that with all the liberality of the taxpayers they have failed to get for their money a full return in efficient administration.

THE SCHOOL BUILDINGS.

Changes and improvements involving considerable expense, but warranted either by necessity or by the great benefits to be secured by them, have been made during the year. In the Avery and Kimball schools, the requirements of classification made additional classrooms imperative. The new room needed at the Avery was provided by partitioning the north classroom on the second floor. In thus making two rooms of one, the floor space and cubic contents of each room were considerably limited, but the change was not made until a plan of heating and ventilating had been approved by the proper state authority. The seven rooms of the building are now meeting the wants of the school, but even a small increase of school population in the Avery district will necessitate space that the building cannot supply. The town may, therefore, properly begin at once to face the problem of additional school accommodations for the northern part of the town.

Since the completion of the High School, two rooms on the second floor of the Kimball school have been available, when needed, for additional classes. Proper heating and ventilation already having been provided, the preparation of one of these rooms for use during the current school year was limited to the purchase of school furniture and the construction of blackboards. To improve the seating of the rooms on the third floor, they were given some of the adjustable desks bought for the school and an equal number of their old desks were

placed in the newly equipped room. In this manner it has been made possible for the teachers of the three rooms to assign adjustable seats to pupils who are either too large or too small for the old desks.

A year ago attention was called to the antiquated desks in the Harris School. Their displacement by more suitable furniture is a pleasing fact to record. In making the changes at the Avery School, it was found possible to remove a considerable number of desks from that building to the Harris School. The seating at the Harris now compares favorably with other schools and in the gradual introduction of adjustable furniture it should share with the other buildings.

The walls and blackboards of the Harris School, long having been in an unsatisfactory condition, the proper repairs were made. The fences enclosing the grounds were also put in order. A further improvement may be suggested. A considerable portion of the grounds immediately fronting the street should be made into an attractive lawn. Those who have admired the lawns at the Avery, High and Kimball schools will agree that the other four schools of the town should be equally favored. During the year, at private expense, the Kimball grounds were further beautified by flower plots. Cannot all our school grounds be put into such condition as to be a source of local pride, an advertisement seen by the hundreds of strangers passing them on electric cars and otherwise, and above all a means of culture for the children at an age when things beautiful make enduring impressions?

The heating apparatus at the Eliot School became unfit for the service required. A new plant has been introduced. In previous years the sanitary arrangements of the school were not a credit to the town. A complete change has been made and a modern system now invites

inspection. These two changes have improved greatly the condition of the Eliot School.

The recent extremely cold weather has called particular attention to a condition, previously known, at the Kimball building. In freezing weather there is always danger of great damage from the bursting of exposed pipes. The possibility of lessening this danger should be taken into consideration. An initial expense will be likely to avert a greater cost of replacing broken pipes and a loss of schooling from the enforced closing of the building.

NEW COMMITTEE ROOMS.

The opening of the new Town Hall has given for the use of the School Committee and the Superintendent more commodious quarters than have heretofore been possible. The most noticeable improvement is a separate room for the reception, storage and distribution of school supplies. The main office can now be kept free from the confusion incidental to a storage room. With the addition of a suitable desk, the rooms will be well equipped. The use of the principal room is now shared with the assessors. Ordinarily no great inconvenience arises from this arrangement; but in due time, it is hoped, the ample size of the building will admit of separate rooms for the two departments.

THE TEACHING FORCE.

Tables II and IV of this report show several changes in the teaching force. Miss Jacobs yielded to the inducement of a higher salary and left us for service in Andover. Matrimony claimed Miss Clara Buck and Miss Thompson. Miss Madella Buck is at home on a year's leave of absence. Miss Treadwell accepted a more desirable position in New Jersey. In September, the High School, the

Avery School and the Kimball School were each provided with an additional teacher.

The new teachers whose names appear in the tables are as follows: Miss Ambler and Miss Wingate at the High School; Miss Lester, (by transfer from the Eliot,) Miss Locke and Miss Hatch at the Avery School; Miss Boyd at the Dwight; Miss Brown, (resigned during the summer vacation,) and Miss Sargent at the Eliot; Miss Richards, and (by transfer from the Dwight) Miss Sutton at the Kimball; Miss Carleton, Supervisor of Drawing.

Details regarding these changes and additions appear in the tables.

COLLEGE ENTRANCE CERTIFICATES.

During the year the Needham High School has been placed upon the approved list of the "New England College Entrance Certificate Board." This signifies that in the opinion of the colleges represented on the board the standard of our High School warrants admission to college, without examination, of its certified graduates. This approval is subject to withdrawal and care will be exercised to certify no graduate who is unlikely to sustain the reputation of the school.

NEW COURSE OF STUDY.

The time having arrived when greater opportunities for High School pupils seemed desirable, the committee voted to employ an additional teacher and to introduce a new course of study covering subjects not taught in previous years. A course was prepared and went into effect at the opening of the present school year. It appears elsewhere in this report. The principal changes are in the line of commercial studies. The full business course is not in operation, owing to the absence of previously prepared pupils. Those who have begun the course, however,

may be expected to avail themselves of its full opportunities. In other directions the course is planned to enable pupils to prepare for college or normal school or to get general intellectual training and culture. Opportunities for instruction in Latin and Greek are therefore not wanting, but greater freedom of choice is allowed. Modern languages will receive greater attention. The study of the mother tongue will be emphasized. Music and drawing have a definite value in the earning of diplomas.

An important innovation is a provision whereby a more flexible classification is possible. Instead of awarding diplomas upon the basis of successfully pursuing, for four years, fixed courses of study, the committee will award them upon the accomplishment of work for which sixty or more credits have been earned. If sickness or other cause, during any year, prevents earning the average number of credits, the pupil will not be compelled to enter the lower class to repeat the work the following year, but will receive credit for studies well covered and subsequently will be allowed to take studies for which he is qualified, remaining in school, under prescribed regulations, until the full number of credits entitling him to a diploma have been earned. This arrangement, without lowering at any point the standard of work required, is expected to encourage pupils who, from misfortune or because of their own fault, accomplish too little during one year, to strive for extra credits during later years. By greater freedom of choice from the beginning and by following pupils afterward found naturally unadapted to a given study to choose another line of work, compulsion is lessened and congenial study encouraged. Fewer pupils, probably, will leave because of becoming tired of the effort to do what neither ability nor inclination qualifies them to do. Finally the course provides for the

deliberate purpose, on the part of frail pupils, of taking a limited number of studies and remaining in school more than four years for diplomas.

Upon the intelligence and zeal of parents and teachers who have the guidance of pupils in their choice of studies will depend largely the success of the new regime. Its possibilities are great and corresponding results are earnestly desired.

THE EVENING SCHOOL.

For several years there has been evidence that an evening school would meet an existing want. In response to personal requests, different principals of the Avery School have given instruction to young people who were no longer attending the public schools. During the past year the number wishing instruction was so great that the attention of the committee was called to the matter. The committee directed an investigation to ascertain the extent of the desire and afterward appointed a meeting in the High School which all interested in the opening of an evening school were invited to attend. This meeting was addressed by a member of the committee and by the superintendent, the nature and scope of an evening school were explained and a canvass made for the purpose of ascertaining the probability of a successful school. Everything seemed to indicate a serious purpose to improve an opportunity for evening instruction. A school was opened, Oct. 10, 1903, and placed in charge of Mr. Arthur C. Clark. In satisfying the ambition of so many people to acquire useful information and training, the committee thought that the approval of the town would follow. To discourage coming a few nights for mere curiosity and to encourage persistent attendance, every applicant for admission was required to deposit one dollar to be refunded if attendance should reach a prescribed percentage. Very soon the

large number applying for admission necessitated the opening of a second room and the employment of an assistant teacher. The principal has reported a reasonable regularity of attendance and good interest in the work.

The statistics of the school up to Jan. 7, 1904, are as follows :

Number of sessions,	33
Number who have attended,	102
Age of oldest pupil,	61
Age of youngest pupil,	14
Membership, Jan. 7, 1904 (male 57 ; female 31),	88
Average attendance to date,	51.7
Number of subjects taught,	7
Number of classes,	9
Largest attendance (Oct. 19),	79
Smallest attendance (Dec. 9, storm),	9

Room A has been in charge of Mr. Clark, who has taught book-keeping, advanced arithmetic and English. Room 13 has been taught by Miss Cole, Miss Wentworth and Miss Shaw. In this room, arithmetic, English, penmanship, reading and spelling have been taught.

In addition to the subjects already specified, shorthand has been taught, gratuitously, on Thursday evenings, by Miss Esther Thorpe.

An unfortunate delay in receiving the necessary book-keeping supplies perhaps limited the attendance during the first month.

As examples of persistence in getting instruction under unfavorable conditions, the principal has reported Sadie Mullen, age 14, who walks 1 1-4 miles and has been absent but two times, and Hattie Roberts, age 16, who walks 1 1-2 miles and has been absent once only.

The results of the school seem to have justified the experiment. The average cost per pupil has not been

great but the question of expense must not be overlooked. Whatever is good costs money, and a town, like individuals, must decide what it can afford. If public opinion warrants the continuation of the school, the experience of this year will lead, it is hoped, to even better results hereafter.

MANUAL TRAINING.

Year by year the importance of manual training as an essential part of public school work is becoming more fully recognized. A few obstacles to its rapid introduction restrain some committees that favor it in theory. As superintendent I have refrained from undue haste in the matter. The committee has also been conservative. The development of drawing as an established feature of public school work and the consequent evolution of well trained supervisors have enabled us to get considerable elementary manual work in our schools. Drawing is essentially a manual occupation, and nothing is more natural and at the same time more attractive to the child than to make a useful article after he has designed it. During the current school year, Miss Carleton, whose experience in Marblehead and elsewhere enables her to accomplish much at little expense, has introduced, in connection with drawing, considerable constructive work with materials that can be used in the ordinary schoolroom.

The true aim of all such work is intellectual. Dexterity is not essential. When the action of the hand becomes automatic, calling for no intellectual effort, the educational value of manual training is at an end, and additional skill, if desired, should be gained outside of the ordinary public school.

At the time of erecting the High School, two basement rooms were planned with a view to the possible introduc-

tion of sloyd in later years. The work already assigned to Miss Carleton, when fully in operation, will cover the first six grades with no appliances that are not available in the regular schoolrooms. The next forward movement, to be made when the valuation of the town and the tax rate warrant it, should be the introduction of two hours weekly instruction in sloyd to pupils of the three higher grammar grades. After the preliminary expense of equipping a room for use, the continuing cost, exclusive of instruction, will not be great.

CONTAGIOUS DISEASES.

During the month of December, the attendance at the Kimball School was greatly diminished by the prevalence of scarlet fever in that district. The misfortune of compulsory absence was intensified by parents who kept their children at home for fear of the disease. In many cases, this fear was caused by an alleged want of sufficiently stringent provisions to guard against the spread of the disease. I am not aware that the school department was charged with neglect in carrying out the provisions of the state law. The allegations were based on the general laxness of public opinion which, it was claimed, is not awake to the need of more efficient quarantining of families in which the disease has a foothold. In making these statements, I do not attempt either to prove or disprove them. To many, the fears of the parents who would not send their children to school but who, in many cases, allowed them to associate, on the street and elsewhere, with children from families affected with the disease, seemed unreasonable; but we cannot seriously criticise honest solicitude for the health of one's children, even if some parents are inconsistent in the exhibition of that solicitude; and although we may be willing

to incur possible danger in keeping our own boys and girls in school, we must accept as a fact that not all persons think and act as we do. The purpose of these remarks, therefore, is not to criticise parents, or teachers, or town officers, but to urge on the part of parents the avoidance of undue haste in withdrawing their children from school; on the part of teachers, vigilance in enforcing the plain provisions of the statute; and on the part of all citizens, the cultivation of a public sentiment that will sustain town officers in the enforcement of stringent provisions for preventing the spread of contagious and infectious diseases.

RULES AND REGULATIONS.

No printed manual of rules and regulations has been issued since 1894. In the meantime the last edition has been exhausted and changes have been made. The time for a new edition is opportune and the superintendent has been directed to prepare a revised copy for examination by the committee. Such a revision has been prepared and awaits the action of the committee.

ELEMENTARY COURSE OF STUDY.

During the incumbency of the present superintendent no printed course of study for the elementary schools has been published. Numerous changes in the course have been made and issued to the teachers in manuscript form. The course should be printed as soon as possible. The town now associated with Needham in the employment of a superintendent is about to publish a printed course which is not likely to differ greatly from the course in use here. Possibly both towns can save expense by joint action in this matter.

CONCLUSION.

A noteworthy fact is recorded in the "Summary of Statistics" included in this report. It will there be seen that every boy who graduated from the Avery School last June entered the High School the following term. Such a fact is evidence of several things. It reflects credit upon the teachers who have awakened the ambition of children for higher education and prepared them to receive it; it speaks well for the boys, who clung tenaciously to their work of preparation and availed themselves of a wider opportunity; it speaks eloquently of the devotion of parents who forego a little present gain from their children as wage earners for the sake of giving them the intellectual equipment that an advancing civilization demands with increasing insistency. The High School is becoming more and more a necessity for all and can no longer be called a luxury for the few. In concluding this report, I wish to express the hope that the citizens of Needham, who have never failed, during my knowledge, to support their schools by their sympathy, by their children and by their money, will continue to manifest an abiding faith in the public school system and an increasing sense of their own responsibility for its proper administration in their own town.

Respectfully submitted,

HENRY M. WALRADT,

Superintendent of Schools.

The first column of figures shows the number of exercises per week assigned to each study. The second column indicates the number of credits allowed for the successful completion of each study.

Required studies are printed in Italics. Other studies are elective, subject to the approval of parents and the Principal. The Principal may decline to form a class (except in cases of pupils preparing for higher institutions of learning) when the number electing a subject is too small to warrant instruction in that subject.

Pupils should have definite aims in their choice of subjects. Rational choices are indicated by letters as follows :

a, studies suitable for all pupils; c, for pupils preparing for a classical course in college; s, for a scientific school or school of technology; g, for a normal school or for general culture; b, for business. Italics indicate that a choice should be made between the two studies marked with the same Italic. Deviations, however, in accordance with the preceding paragraph, will be allowed.

During every year pupils are required to take studies counting for a total of at least twelve credits. Diplomas will be awarded upon the completion of studies to the value of sixty or more credits.

Roman numerals indicate that in subjects so marked a course of less than two years will not be counted.

No credit will be allowed in any study in which the pupil's record for the year is below 65 per cent.

Pupils who desire a certificate for admission to college or permission to take a preliminary examination are advised to make every effort to earn a rank of at least 75 per cent.

Fourteenth Annual Report of the Water Commissioners.

To the Inhabitants of the Town of Needham, Massachusetts :—

The board of water commissioners herewith submit their fourteenth annual report, for the year ending December 31, 1903.

At the annual town meeting in March, Mr. George H. Toone was re-elected water commissioner for a term of three years.

The board organized by electing Mr. Frederic G. Tuttle, chairman, and appointing George A. Adams clerk.

On October 23, the community was shocked to learn of the sudden death of our chairman, Mr. Tuttle. By his death the town loses a faithful and conscientious officer. Being of a quiet and unassuming disposition, he was respected by everyone. He had served the town acceptably in the capacity of water commissioner since June 1, 1896, and was ever ready to do the work as it presented itself.

The vacancy in the chairmanship, caused by his death, was filled by election of Mr. William Carter, October 28.

EXTENSIONS.

At the annual town meeting it was voted to make two extensions of the water main in Central avenue, from the

residence of Mr. L. E. Murphy, southerly 1400 feet to the residence of Dr. Macgowan, and from Charles River street northerly 900 feet to the residence of Mr. David Simon, but there were no provisions made to pay for either extension. We were able to make the extension of 900 feet to the residence of Mr. Simon from money of the construction account, but the condition of the treasury would not warrant making the other, as the final statement of the basin contract was not finished until December 18.

BASIN.

In accordance with a vote of the town instructing its water commissioners, to build a basin, etc., near the pumping station, as recommended in their report of 1902, as soon as the weather would permit, we employed Mr. Louis E. Hawes, C. E., to make surveys and plans of the proposed work, which consisted of a reservoir basin covering about 7 acres, with a capacity of 9,000,000 gallons, a dam with core wall, gate house, two bridges, 1,565.8 feet of vitrified collecting conduit, intake chamber with cut off wall and building, and a cast iron supply pipe running from the intake chamber to and along Dedham avenue to and thro' the pumping station lot, dam, gate house, basin, to well No. 1. The plans were completed and submitted to the State Board of Health for approval and the work was advertised June 24, the specifications calling for the completion of the work based upon approximate estimates of the quantities to be performed. There were seventeen bids received, ranging from \$8,666.80 to \$14,455.55. The contract was awarded to Rowe & Perini, of South Framingham, they being the lowest bidders, who started upon the work immediately after signing the contract, and carried it on continuously until its completion, November 21. The final measurements show that some of the estimates were too small, one of the prin-

principal items being the excavation of loam from the reservoir basin, where the measurements exceeded the estimates nearly 2000 yards. This was due to a thick layer of loam which was encountered beneath the thin gravel stratum in one portion of the basin, and which it was thought advisable to remove as the layer of gravel was not of sufficient thickness to make a first class bottom. There were some smaller items that exceeded the estimates, but in every case it was additional work which was found necessary to perform in order to make a satisfactory job, and we are of the opinion that the finished contract speaks in praise of the work performed by the contractors as well as those who had it in charge. The water was let into the basin from the Hicks spring supply November 18, and the benefit derived from the additional source of supply cannot be otherwise than gratifying as its influence is already being felt in the valley from which our main supply is taken. The basin is about 1-3 full and the water table of the valley has risen 5 feet since the water was let into the same.

In making the survey for the proposed basin it was thought advisable to include in the same the low land adjoining the town lot, consisting of .86 acre belonging to Mrs. Elizabeth Livingston, and 1.62 acres belonging to the heirs of Emily E. Colburn. As it was impossible to agree upon the price of the land, it was necessary to seize the same in accordance with the acts of the legislature, which was done September 15, leaving the question of damages to be adjusted as the law directs.

PIPE.

The contracts for furnishing the cast iron supply pipe were awarded to F. A. Houdelette & Son, of Boston, for \$32.80 net ton, the pipe for Central ave. extension to Davis & Farnum Mfg. Co., of Waltham, for \$27.40 a net ton, the

flange and special castings also to Davis & Farnum, the vitrified pipe to David W. Lewis, and the valves to the Coffin Valve Mfg. Co., these being the lowest bidders.

BONDS.

Bonds to the amount of forty thousand (\$40,000) dollars have been sold during the year, being the last of the amount authorized by the legislature. The premium received on the above bonds was three thousand seven hundred and ninety-three dollars and eighty-eight cents (\$3,793.88).

Summary of Statistics.

For the Year ending Dec. 31, 1903.

NEEDHAM WATER WORKS, NORFOLK COUNTY, MASS.

Population by census of 1900—4,014.

Date of construction—1890.

By whom owned—Town of Needham.

Source of supply—wells.

Mode of supply—pumping to standpipe.

PUMPING.

1. Builders of pumping machinery—The George F. Blake Mfg. Co.
2. Description of fuel used—
 - a. Kind—bituminous coal.
 - b. Average price of coal per gross ton, delivered, \$6.62.
3. Coal consumed for the year—722,200 pounds.
4. Total pumping for the year—107,580,370 gallons, without allowance for slip.
5. Average static head against which pumps work—242 feet.
6. Average dynamic head against which pumps work—255 feet.
7. Number of gallons pumped per pound of coal—148.9.
8. Duty =
$$\frac{\left\{ \begin{array}{l} \text{gallons pumped} \times 8.34 \text{ (lbs.)} \times \\ 100 \times \text{dynamic head} \end{array} \right\}}{\text{Total fuel consumed}} = 31,679,525.$$

Cost of pumping, figured on pumping station expenses, viz., \$3,414.40

9. Per million gallons pumped—\$31.73
10. Per million gallons raised one foot (dynamic)—\$.124

Cost of pumping figured on total maintenance, viz., \$12,748.89.

11. Per million gallons pumped—\$109.21.
12. Per million gallons raised one foot (dynamic)—\$.428

CONSUMPTION.

1.	Estimated total population at date,	4,300
2.	Estimated population on lines of pipe,	4,050
3.	Estimated population supplied,	3,850
4.	Total consumption for the year,	107,580,370 gallons.
5.	Average daily consumption,	294,740 gallons.
6.	Gallons per day to each inhabitant,	68
7.	Gallons per day to each consumer,	76
8.	Gallons per day to each tap,	370

DISTRIBUTION—MAINS.

1.	Kinds of pipe, Iron.	
2.	Sizes, from 4 inch to 12 inch.	
3.	Extended 4264.7 feet during the year.	
4.	Total now in use, 34.60 miles.	
5.	Number of hydrants added during year,	2
6.	Number of hydrants now in use, public 280, private 4.	284
7.	Number of stop gates added during the year,	13
8.	Number of stop gates now in use,	264
9.	Range of pressure on mains at centre of town, 63 lbs. to 77 lbs.	

SERVICES.

10. Kind of pipe—cast iron, cement lined iron
gavanized iron and lead.
11. Sizes, 1-2 to 4 inch.

12.	Extended 1,876.1 feet.	
13.	Total now in use 11.76 miles.	
14.	Number of service taps added during year,	22
15.	Number now in use,	795
16.	Average length of service, 78.0 feet,	.
17.	Number of meters purchased,	12
18.	Number now in use,	759
19.	Percentage of services metered, (Domestic)	100

Water pumped since works were established, Dec. 1890 :

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

ASSESSORS

FOR THE YEAR 1903

NEEDHAM
THE CHRONICLE PRESS
1904

Assessors' Report.

In submitting the following report, which must necessarily be mainly an array of figures, the board would say that they have constantly kept in mind, from the very start, the fact that all assessments should be made on a basis of equity, as nearly as possible. No radical changes have been made, and in cases where changes appear, circumstances which affect and control values have rendered necessary whatever variation from former values may be found.

By comparison with the report of nineteen hundred and two, it will appear that there is a gain of \$135,000 in real and personal estate, but owing to heavy losses through fire and the ravages of foot and mouth disease in cattle, our net gain for nineteen hundred and three is \$65,002 personal estate, and \$29,452 real estate; total of real and personal, \$94,455.

Owing to the high price of labor and building material, we have not found the increase of new building we would naturally look for.

It behooves every taxpayer to do all in his power to keep our tax rate down this year to about \$17.00 if possible.

We hope that every voter will consider carefully the appropriations recommended by the committee appointed

for that purpose, for this is a matter of vital interest to the town of Needham.

Following the instructions of the tax commissioner of this commonwealth, we have made every effort to secure returns of invisible personal property.

Men who shirk their just burden of taxation do not consider as they ought to do that by as much as they fall short of contributing their rightful share toward our government, they are also defrauding their fellow citizens who are more conscientious.

Sincerely submitted,

JAMES F. RYAN,

Chairman of Assessors.
